COVID-19

November 2020 National Lockdown - Important Information

Following the parliament vote to confirm the second national lockdown, information was received late yesterday from the DfE, Public Health NW & Cheshire West & Chester Council. We have been working through this guidance and have pulled out the key information relevant to primary schools.

There are several key areas identified:

We are unable to hold any activities that extends the school day, other than childcare via Kids Club and Premier Education, which will continue as normal.

Unfortunately, this means we are unable to run the following after school activities until further notice. This is with immediate effect.

- Year 5 and 6 Booster sessions
- 1:1 Music tuition (after school only) Mr. Stannard will contact parents directly to discuss the options available.

Afternoon Collection / Face coverings

All parents must continue to wear face coverings at all times and maintain social distancing whilst on the school site. If you leave your car for any reason, please ensure you have a face covering on – thank you.

Please ensure your family names are clearly displayed in your car windows, as not all staff are familiar with everyone's cars – thank you

Communicating with school

Please continue to liaise with school regarding any self-isolation requirements, test results or general concerns.

We ask that you please refrain from posting any information on social media, WhatsApp groups until school has time to act on any information provided – thank you for your assistance.

If you have any issues relating to COVID **out of school hours**, please email covid@lowerpeover.cheshire.sch.uk
